- Email me on Indeed: [indeed.com/r/Akash-Hamilton/53e655afc4220406](https://indeed.com/r/Akash-Hamilton/53e655afc4220406)

To obtain a challenging position as a web development manager that will utilize my skills and provide opportunities for professional development.

## WORK EXPERIENCE

Google - 1997 to Present

Motivated self-starter, able to work in a fast-paced environment, strong hands-on leadership skills and decision-making abilities, work well in a team or independently, excellent verbal and written communication skills, able to set and meet deadlines/goals, extremely well-organized, highly detail-oriented, creative problem-solver, fast learner

It matches my skills and abilities. I have more than extensive experience with HTML hand coding from the scratch, I mean the old fashioned way and not with WYSIWYG (What you see is what you get). My experience and skills will help solve day to day problems which the web development team experience to design emails which are user friendly and is uniform with all the platforms. Since I can write HTML code from scratch, I can bring uniformity in the design template. The email I will design will look absolutely the same on Google, Apple, Thunderbird, Internet Explorer, or Firefox etc.
